THE UNITED BULB CO.

MOUNT CLEMENS, MICH.

P. O. BOX 39

LADIOLI are rapidly gaining a foremost position in the flower market; especially notable is the enormous increase in glads used for forcing. To give you a comparison, just note the following quantities sold by us for forcing during the last 5 years:

1919-20 we sold 130,000 bulbs for forcing only.
1920-21 we sold 240,000 bulbs for forcing only.
1921-22 we sold 380,000 bulbs for forcing only.
1922-23 we sold 720,000 bulbs for forcing only.
1923-24 we sold 1,240,000 bulbs for forcing only.
1924-25 we sold 1,800,000 bulbs for forcing only, making this a record year in our history, when almost 6 million Glads were sold.

In presenting our new wholesale catalogue we beg to draw your kind attention to the fact that we are the largest growers of Gladioli in America, and that the varieties we offer, are absolutely true to name. We are more than ever in a position to give our customers reliable service and dependable quality. Our storage facilities are adequate to take care of 10 million bulbs. Special attention is given to proper storing and treatment; bulbs kept at the right temperature during the winter, will keep their vitality much better.

HINTS FOR FORCING: Buy only the very best at least 1½ inch up and order early. The bulbs for forcing are looked after in the fall, every one is examined and stored away at the right temperature until shipping time. **YOUNG HIGHCROWNED BULBS** are essential. Plant around the middle of January and put the Glads 5-6 inches apart. **DON'T WATER THEM TOO MUCH**, just keep them moist, you can give them plenty of water, when the buds show. Keep the bulbs at a carnation temperature. Sunshine is essential. Don't plant them where they are shaded too much. One of our customers planted his forcing Glads between his rows of Sweet Peas; at both ends the bulbs flowered well, in the middle many came blind.

We are always at your service. Our lifelong experience in growing Gladioli is entirely yours. If we can do anything for you, just tell us about it.

Our Gladioli Force Well

View of a house of Glads at the Hillside Floral Company of Mount Clemens, Mich., who forced around 10,000 bulbs last year.

On the left variety WILBRINK, which averaged 95%; on the right MAIDENSBLOOSH which brought from 125-140% perfect flowers.
